MEMORANDUM FOR: Office of Logistics/Procurement Division/Contract Branch

SUBJECT : Request for Increase in Scope with Additional Funds  
under Contract RD-26, Task 101, with [redacted]

25X1  
25X1

1. It is requested that your office take the appropriate action to amend the scope of Task 101 under Contract RD-26 to include the procurement, installation, and evaluation of a four channel transmitter-receiver unit for the mobile ASA unit being developed under this task. Originally it was planned that this radio communications equipment would be Agency furnished; however, this proved to be an unsatisfactory arrangement which would result in a nine month delay.

2. Additional funds in the amount of \$4,240.00 are to be made available to the contractor for the performance of this additional work. A sub contract for the fabrication of radio communication transmitter-receiver was released by the contractor, with Agency approval, to expedite this task while negotiations for the increase in scope were being conducted. This sub-contract was awarded to ABS Electronics, Worthington, Ohio, for the amount of \$1500.00. Existing funds in the present task order were used to cover the sub-contract and should be replaced through this supplement. Charges are to be made against Allotment Number 0327-1002-5036. A period of five months will be required to complete the project.

3. The work is to be accomplished in accordance with the contractor's proposal attached hereto.

4. Further information concerning this request may be obtained by contacting the project engineer for this program, [redacted] Room 210, West Outbuilding, extension [redacted]
